Start times	11.30-12.30 see start list posted on website
Map	1:5000 5m contours
Courses	
Men	6.5km 50m 31 controls
Ladies	4.8km 45m 24 controls
Junior	2.9km 20m 15 controls
Terrain	A mixture of interlinked sandy tracks and paths amongst the woodland and heath
Controls	This event is not SIAC
Facilities	Toilets, café, adventure playground

Please can I ask you to not arrive too early the junior park run is on the area beforehand, hence why our first start is not until 11:30. Once you do park everything is close by, the start is only 30m from the car park, and the toilets are located at the far south east tip of the car park next to the cafe.

When you arrive, please park on the right-hand side as you come in leaving the main carpark free for job public.

There are a number of adventure slides, climbing frames and gym equipment please can you not use them till after your race.

The start will be a punching start with a 2-minute call up. There are no loose descriptions. Why you may ask !!! because there are course loops and variations! See below. When you finish come to download, for your splits and check on your position, results will be on display.

IMPORTANT NOTES

The junior course is a traditional single sided course.

The ladies' course has back-to-back double-sided maps, at the end of part 1 at control 16 turn over the map for part 2. The finish is marked on only part 2 but is adjacent to the start.

The men's course has back-to-back double-sided maps, at the end of part 1 at control 18 turn over the map for part 2. The finish is marked on only part 2 but is adjacent to the start. **ALSO** the men's course has a phi variant loop; this means runners will be split to do the same course but in a different order, so just because you catch somebody you cannot be sure what part of the loop they are on so follow at your peril!

In the example shown left one runner might have the loop

A -> B -> C -> A -> D -> C and the rest of the course

And the other runner does

A -> D -> C -> A -> B -> C and the rest of the course

Please make sure you punch correctly

If you have a SI-card 8 i.e. a dibber in the range 2,000,001 – 2,999,999 then please get a hired dibber from me because it will only hold 30 controls and the course has 31
