Organiser's comments

I hope you all enjoyed a beautiful spring day in the Surrey Hills(AONB) and a chance to see how we started competing on the original OS maps. It was certainly a challenge in those days and we didn't have the luxury of a back-up colour map event on the re-run in 1975. I remember attacking the spot height control 3 times on that day even when the control marker was the size of a small sail. Those of you who got around without resorting to the colour map, well done!

Checking control codes on cards, matching stubs and calculating times in real times to produce the results brings back the memory of the after event work involved. Too easy these days.

A special thanks to Peaslake Free School for allowing us to use the original start of a number of the early events and LOK for getting us the permission.
